On The Move

The Complete Guide to Mobile Healthcare

**Mobile Medical, Dental, & Specialty Clinics
Built to Expand Access and Improve Outcomes**

Better Access

Better Outcomes

Stronger Communities

Expanding Care Where It's Needed Most

Millions of people face barriers to receiving timely healthcare due to distance, transportation challenges, provider shortages, and limited access to specialized services.

Mobile clinics bring care directly to the communities that need it most, helping organizations extend their reach without the limitations of a traditional facility.

Inside This Guide

- ✓ Benefits of mobility
- ✓ Medical, dental & specialty clinics
- ✓ Vehicle selection tips
- ✓ Layout planning essentials
- ✓ Build process overview
- ✓ Next steps to launch

Why Organizations Are Going Mobile

Expand Access

Reach patients in rural, underserved, and urban communities by bringing healthcare directly to them.

Improve Patient Outcomes

Increase opportunities for preventative care, early detection, routine screenings, and follow-up services.

Increase Efficiency

Reduce patient travel, improve scheduling flexibility, and maximize the use of healthcare resources.

Support Community Outreach

Deliver healthcare services at schools, workplaces, community events, public health initiatives, and emergency response locations.

Flexible & Scalable

Adapt your program as demand grows with solutions designed for a wide variety of healthcare services and operational needs.

Maximize Your Investment

Expand healthcare capacity and reach more patients without the time and cost of constructing a new permanent facility.

Who Uses Mobile Clinics?

Hospitals & Health Systems

Expand services, improve community outreach, and increase patient access.

Community Health Centers

Bring primary care and preventative services directly to underserved populations.

Dental Practices

Deliver preventive, restorative, and outreach dental care in schools, workplaces, and communities.

Public Health Agencies

Support vaccination programs, screenings, emergency response, and public health initiatives.

Nonprofit Organizations

Increase healthcare accessibility through mobile outreach and community-based programs.

Corporate & Occupational Health

Provide employee wellness, physicals, screenings, and occupational health services on-site.

Types of Mobile Clinics

Finding the Right Fit For Your Program

Mobile Van

Ideal for outreach programs and organizations that need maximum mobility.

Mobile Truck

A balanced solution with extra space for exam rooms, equipment, and patient capacity.

Mobile Trailer

Designed for multiple treatment areas, advanced equipment, and expanded services.

The right mobile solution is one that's built around your mission, your patients, and your future growth.

Inside A Mobile Clinic

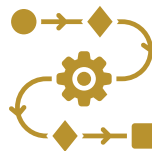

Designed Around Patient Care

Patient Comfort

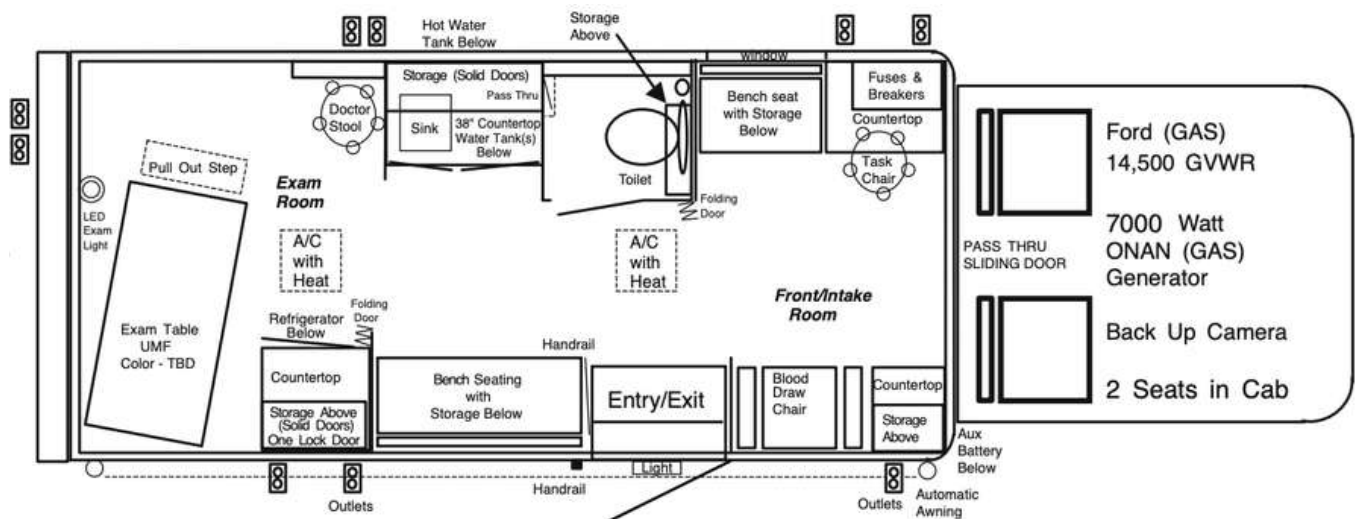

Efficient Workflow

Privacy & Safety

Planning Your Clinic Design

Every Successful Mobile Clinic Starts with A Plan

- ✓ **Define Your Services**
What type of care will your clinic deliver?
- ✓ **Plan for Equipment**
What medical equipment and technology are required?
- ✓ **Patient Volume**
How many patients will you serve daily?
- ✓ **Operational Needs**
Where will your clinic travel and operate?

A well-designed mobile clinic improves workflow, enhances patient care, and supports long-term success.

Key Build Considerations

Creating A Fully Functional Healthcare Environment

Power & Electrical

Reliable systems designed to support medical equipment and daily operations.

Climate Control

Maintain a comfortable environment for patients, providers, and equipment.

Technology Integration

Support connectivity, communications, and modern healthcare technology.

Storage & Workflow

Maximize organization with efficient storage and a layout that keeps supplies within reach.

Understanding Your Investment

Expand Your Reach

Deliver healthcare services to more communities and underserved populations.

Maximize Resources

Extend the value of your staff, equipment, and healthcare programs across multiple locations.

Increase Patient Access

Reduce barriers to care by bringing services directly to patients.

Grow Your Programs

Launch new outreach initiatives and expand existing healthcare services.

The Long-Term Value

- ✓ Reach More Patients
- ✓ Expand Community Impact
- ✓ Improve Program Efficiency
- ✓ Increase Service Capacity
- ✓ Support Sustainable Growth

New vs. Used Mobile Clinics

Understanding Your Options

New Mobile Clinics

- ✓ Custom-built for your services
- ✓ Modern layouts & features
- ✓ New equipment compatibility
- ✓ Manufacturer warranty included
- ✓ Built for long-term growth

Used Mobile Clinics

- ✓ Lower upfront investment
- ✓ Proven operational history
- ✓ Unknown condition & maintenance
- ✓ Evaluate future upgrade needs
- ✓ Less efficient layout

Selecting a solution that aligns with your mission and long-term goals is the key to a successful mobile healthcare program.

The Build Process

From Concept to Completed Mobile Clinic

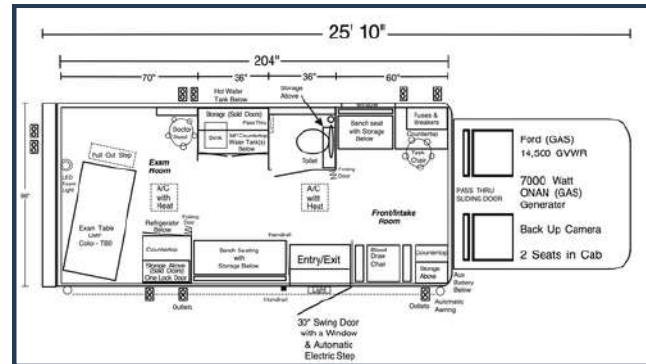

1 Consultation

We learn about your healthcare program, operational goals, and vehicle requirements.

2 Design & Configuration

Our team develops a customized floor plan and vehicle configuration tailored to your application.

3 Manufacturing

Your vehicle is professionally built using commercial-grade materials and integrated systems.

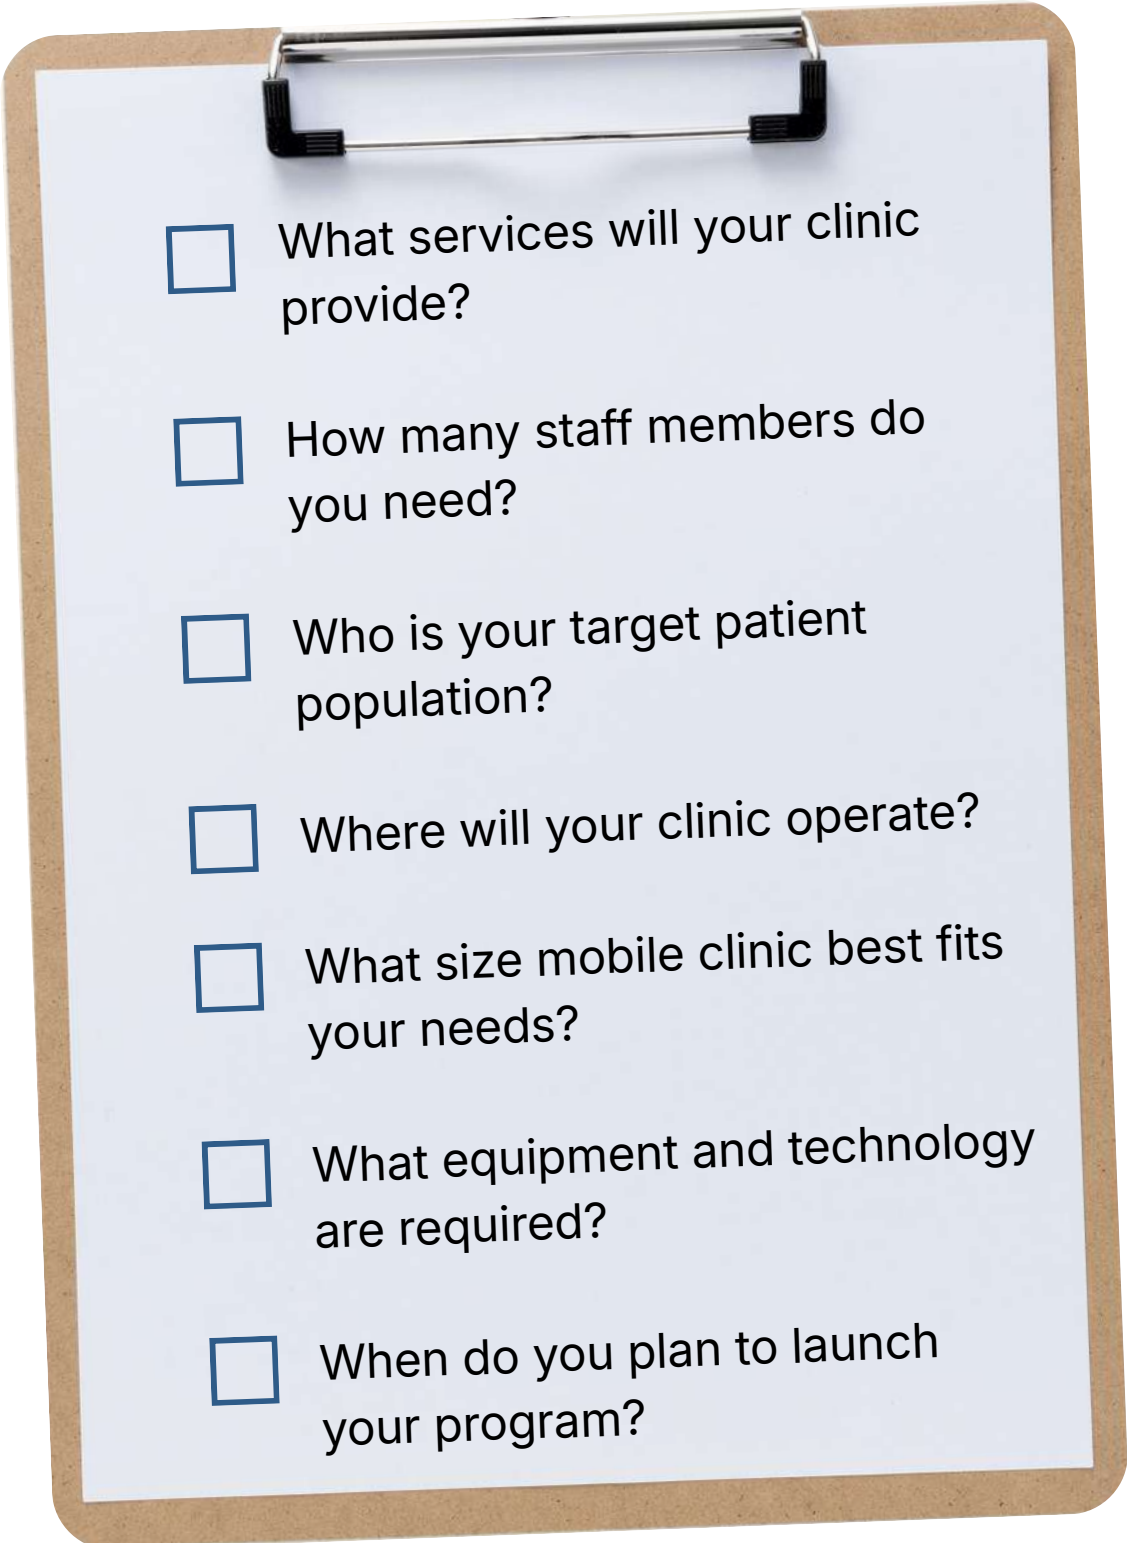

4 Delivery & Support

We coordinate delivery, provide walkthroughs, and support you beyond delivery.

Mobile Clinic Planning Checklist

- 
- ☐ What services will your clinic provide?
 - ☐ How many staff members do you need?
 - ☐ Who is your target patient population?
 - ☐ Where will your clinic operate?
 - ☐ What size mobile clinic best fits your needs?
 - ☐ What equipment and technology are required?
 - ☐ When do you plan to launch your program?

Our team can help you evaluate your goals, answer your questions, and design a mobile healthcare solution tailored to your organization.

Your Partner in Mobile Healthcare

At Magnum, we partner with healthcare organizations to design and build custom mobile clinics that expand access to care. From planning to delivery, we're with you every step of the way.

Custom-Built for Your Program

Efficient, Patient-Focused Designs

Built for Years of Service

Support Before & After Delivery

Let's Build Your Mobile Healthcare Solution

Together, we can remove barriers, improve lives, and create healthier communities one mile at a time.
